RECLAIM THE STATE.

It has been estimated that three-fourths of all the land in Nevada has soil capable of producing fine crops if watered. It is positively known that every tree planted and every acre of land plowed adds to the rainfall of a country. It is also a fact that heavy winter and spring rains make good feed in the mountains and increase crops in the valleys, thus adding greatly to the wealth of the year. If Senator Marker's bill becomes a law ten years' time will change the face of this country to a wonderful degree. There are vast tracts of fine land in Paradise valley, on the Humboldt and Carson and their tributaries, in Spanish Springs and Winnemucca valleys that are now worthless, for the lack of water which sinks in the lakes and is wasted. To bring these two wasted forces together would be to make both immensely valuable. It would bring in population, increase our revenues, and secure a lasting and healthy prosperity. There are abundant markets at good prices for all that would be raised and one thing would lead to another until we would have factories as well as farms. There would have to be some ditches built, but the great thing would be to construct hundreds of small reservoirs in the different mountain ranges, thus saving spring floods and autumn drouths. The opportunities are innumerable and all that is wanted is intelligent legislation. If our Legislature can conceive of a plan to carry this idea into effect time will more than demonstrate the wisdom of their course and they will be remembered for the patriotism and far reaching wisdom of their act.

ANNEXATION.

We publish to-day a communication from Churchill county opposing the annexation of that territory to this county as provided by the Varian bill. The correspondent is evidently opposed to the measure, but why, he fails to show. He does not think Churchill should be blotted out while she is in a prosperous condition. Both counties are free from debt and prosperous, for that matter, but if the taxpayer can be benefited by the consolidation why oppose the measure? The Controller's report shows Washoe to be the richest county in the State and she can better afford to maintain a government than any other of the counties, but that is no reason why we should not make our expenses less if we can. The same argument applies to our neighbor. Because Churchill is prosperous it is no reason why her people should not embrace an opportunity calculated to reduce taxes and make that territory still more prosperous. The reasons given why the proposed annexation should not be made are hardly worthy of notice. Because Churchill has always been able to take care of herself it is no reason why her people should not strive to better their condition. Another reason given is that the county is no expense to the State, for she has no convicts, no orphans or insane patients. The Warden's report shows that she is represented in the penitentiary, and the Commissioners of the Orphans' Home reports wards from that county. Churchill, with sparsely populated territory, has not sent many criminals to the penitentiary or orphans to the Home, but is that any argument to prove that she never will? Mr. Varian's statement, published in the GAZETTE, shows conclusively that it would be a great benefit to the people of both counties to carry out the proposed plan, particularly to Churchill.

The Massachusetts Supreme Court have decided that liquor dealers cannot evade the law which prohibits the sale of liquor within 400 feet of a school-house. The effect will be to prevent about 150 dealers carrying on business in their present locations. The liquor dealers thought they could avoid interference by boarding up the principal entrance on the street near a school-house, making new entrances from other streets.

EDITORIAL NOTES.

There are 12,000 head of Jersey cattle in the Isle of Jersey, and 6,000 on the Isle of Guernsey. The exportations from both are nearly 3,000 head. The importation of cattle to these islands is strictly prohibited, and no vessel having a horned beast on board is allowed to enter any of their ports.

It is said that a company has been formed in Iowa for the purpose of manufacturing sporting shot from iron. It is stated that the trials which have been made of the shot have proved it to be fully equal and in some respects superior to the lead shot. Ovens are now being put up to anneal the shot.

Since the Milwaukee fire, patents for nineteen new life-saving inventions for use at hotel fires have been applied for at Washington. Most of them are novel, many ingenious, and a few, possibly, will prove useful. What is really needed is a hotel which will protect itself against fire.

There are no indications of the heavy storm predicted by the weather prophet Wiggins, and it is understood that he has withdrawn the prophecy concerning the great hurricane and tidal wave for March 11th.

Gum-Boot Artists in Council--Factories Closed.
 NEW YORK, Feb. 9.

A private meeting of rubber manufacturers was held at the Astor House yesterday, at which were present fifteen representatives of leading rubber companies of the United States. The convention discussed the question of the advisability of forming a consolidated rubber manufacturing company to include all, and after discussion of the subject in all its points decided to leave the matter to a committee of six manufacturers, who will report at the next meeting. In accordance with an agreement, a number of companies will close their factories to-morrow and throw at least 8,000 persons out of employment. The reason for this action is the high price offered rubber, which manufacturers claim is due to the operations of cliques working toward speculation. The manufacturers are willing to pay a living price for crude rubber if they could get correspondingly advanced figures for their goods.

The Great German Craak.

PHILADELPHIA, Feb. 8.
 At the opening of the new rooms of the Socialist Liedertafel Society Herr Most was the principal guest. When asked by a reporter if his friend Hartman, the Nihilist, was present, he said Hartman had gone to New York. When asked if Hartman came to confer with him in regard to the coronation of the Czar, he replied that it was not his immediate business, but the subject had been discussed. He added: "The coronation of the Czar will not take place." He said Hartman had come to confer with him concerning secret matters of their organization before leaving for England. These matters are such as could not be trusted to writing. Herr Most spent the evening enjoying singing in the society of ladies. A communistic recitation was favorably received.

A Negro Outrage--Failure of a Lynching Party.

PAOLA, Kan., Feb. 8.
 Last night a little colored girl, Maud Benning, 9 years old, was found lying upon the ground stripped of most of her clothing, with her arms and legs frozen. After medical treatment for several hours she revived and related a story of fiendish outrage by the notorious negro Henry Smith, who was later arrested and jailed. To-night a great crowd of negroes gathered around the jail and demanded Smith. The Sheriff had prepared for an attack and refused, when the negroes opened fire and wounded the Sheriff and his son. The Sheriff's party returned the fire, killing one negro and seriously wounding two, besides injuring several others.

NEW YORK, Feb. 8.
 Mace and Slade gave a sparring exhibition at Madison Square Garden this evening. The attendance was small, at no time being over 2,000. The performance was of the tamest

nature, and failed to awaken a semblance of enthusiasm. A very large force of policemen, under command of Captain Williams, was present. Mace and Slade appeared in full ring costume—Mace in blue and Slade in white. Slade's greatest show was in easy movements, and quick and long reach. In the four rounds given he showed that he was active in getting away, quick in return and a good stopper. Mace assumed his old style and form, hands well up and firm on his legs. His whole object seemed to be to exhibit the good points of his protege.

Buchanan Hepburn, the principal member of the company, went to the store to quiet the tumult, addressing them in conciliatory language, but finding his moderation met with insults, he hurried back to the house. Just as he entered the room he was shot and died instantly. Four hours later a fight ensued between the employees and the ruffians, four men

being killed. Aid being summoned from surrounding towns, the authorities and citizens turned out en masse and captured five ruffians, among them Hepburn's murderer, and all were executed. Hepburn was wealthy and had invested much money in Chihuahua. Order has been restored and the authorities are pursuing the criminals in the mountains.

WESTERN TELEGRAMS

A Steamer Burned and Five Lives Lost.

SEATTLE, W. T., Feb. 8.
 The steamer Gem left this port this morning loaded with hay and other freight for Port Gamble, Seabeck and Union City, with four passengers. She called at Port Madison and in the afternoon started for Port Gamble. When five or six miles out smoke was observed coming from the hay. They headed the boat for shore, lashed the wheel and got a life-boat into the water, but it went adrift. In three minutes all but the extreme forward part of the boat was a mass of flames. The Chinese cook and two deck-hands shoved the remaining boat into the water and jumped for it, but fell into the water and were drowned. F. C. Vickery, a passenger, teacher at the Skohomish Indian reservation, cried to his wife to follow him and he would save her, and plunged into the Sound and was drowned. His wife followed him and sank in a moment. The deck-hands lost were George Gowan and E. Rayback, and there, with Vickery and wife and the China cook, complete the list of those drowned. Captain Williamson anchored and kept the craft's head to the wind, and the bow free from fire and himself and others safe until taken off by boats from the shore, two miles distant. The Gem was a stern-wheeler of 58 tons, belonging to John McGreary & Co. of Union City, and was valued at \$6,900.

Johnny Bels tries to hold his own against all competition and manages to succeed pretty well. He attends to business strictly and is always ready for a customer.

The applicants for teacher's certificates will be in mind Superintendent W. R. Jenvey's published notice to report at the new public school building for examination at 9 o'clock sharp to-morrow morning.

The Wine House is a very popular resort. It is always warm, well lighted and cheerful. Chei-ovich & Co. spare no pains to make it attractive. There are probably no two houses in Nevada that together carry so much stock as the Wine House, which is picking up an immense wholesale business.

PERSONALS.

Matt Canavan went below last night.

U. S. Marshall Corbet was in town to-day.

W. R. Chamberlain returned home yesterday.

Ex-Sheriff Kyle of Eureka was in town last evening.

D. W. Wallis of Wadsworth and Pat Henry of Verdi are at the Arcade.

Senator Fair still sojourns in San Francisco, and the session of Congress is nearly over.

J. F. Moody, formerly proprietor of the Truckee Hotel, will open a bank in Truckee next Spring.

WAKING UP.

A Little Town that Shows Signs of a Boom.

Hawthorne, about 100 miles south from Mount House, on the Carson & Colorado Railroad, begins to show signs of vigorous life. Six large buildings are being constructed and a lively stable is nearly completed. Travel to the Mount Cory mines is quite brisk, though the road is not yet finished. It will be one of the best turnpikes in the country and will afford a splendid drive. The grade is easy and the turns gradual, so that good time can be made by teams between Coryville and Hawthorne.

MORE FOOD.

Stocking the Water—White-Fish From Michigan.

Mr. Gifford, from the California State fishery, arrived in Truckee a few days ago with thirteen large fish cans filled with Michigan white fish from the State hatchery, which he proceeded to deposit in Lake Tahoe. Mr. Gifford stated that a car-load of carp from the East will be apportioned out among the different lakes and streams, and that this section would doubtless be remembered; that they would be deposited only where public fishing was allowed, and that all the lakes and ponds in this section of country would receive a share of the stock.

Poisoned Quail.

A rancher from Carson river tells the Virginia Chronicle that Indians who sell quail in that city kill the birds with poisoned wheat prepared by themselves. He says the Indians procure the poison from Italians living on ranches near the river. A great many people, who pretend to be authority on such subjects, say that the poison administered does not affect the meat of the bird in the least, but some people prefer to eat birds killed in some other manner.

The Chinese New Year.

To-morrow night will be the liveliest of the Chinese New Year festivities. Then the Mongol will "make Rome howl." The Chinese laundrymen are presenting their white customers with gifts of various sorts. Sometimes the offering is a jar of sweetmeats or a silk handkerchief. The most familiar gift is a saucer of lily bulbs.

A Wind Fall.

The Carson Index says: "There were great festivities in Chinatown last evening in honor of the New Year. The hospitalities to the Americans were profuse. The Index acknowledges the compliments and generosity of Mr. Cow On, one of the most eminent of the merchants of that burg."

A Rumor.

It is rumored that the Truckee Lumber Company has purchased a large interest in the Dog Valley Mill Company.

"THE MAJOR" IN PRINT.

F. G. Wilson sends the following to the GAZETTE. It is printed verbatim et literatim:

A BLIZZARD STORY.

A Dog That Can Burrow Like an Artesian Augur.

The Minneapolis Tribune tells the following miner's yarn: "I was in Cheyenne after Jim had got rich, and persuaded him to give me that dog of his'n, Bose. I was out hunting one day near Laramie, when one of them hurricanes come up, and I didn't know what to do. It was perrairie all around. I could see the storm a comin' but two miles off. If I run it would catch me. If I stayed there it was death. So I jes took and shoved old Bose's nose agin a bank and yelled "rats!" You orter have seen that dog scratch. He throwed dirt behind him like a breaking plow drawn by 20 yoke of oxen. I held on to his tail and he scratched. We hadn't got in the ground more'n 200 feet when the storm struck us. But Bose kept scratchin'. I let him go on for a mile or so, when I told him to let up, which he did, the surprisedest dog you ever seed because he hadn't caught up with the rats. I got back to the top of the ground, went to Laramie, and started the story that I had found a cave. I made \$100,000 by showin' tourists that cave, but lost it all speculatin' in mines."

Chinese Wages.

A little money goes a long way with a Chinaman. He thinks there is as much truth as poetry in the verse by John Adams, beginning, "Man wants but little here below nor wants that little long." For instance, a washer in a laundry receives \$7 per week, an ironer \$6 and a house servant \$5. In China these men would get about \$2 a year.

ANNEXATION.

A Churchill Correspondent Who Kicks at the Proposition.

STILLWATER, Feb. 6.

EDITOR GAZETTE:—In a recent issue you publish Mr. Varian's bill for the annexation of Churchill county to Washoe. In the same issue you make editorial comment favoring the bill. You say Churchill county "is in a prosperous condition and it would effect a handsome saving to abolish one county government and put the two under one roof." There is something of antagonism in these two statements. It surely is not logical. If Churchill county is in a prosperous condition why should it be blotted out? Your assertion suggests the thought that Washoe merely wants to absorb Churchill because the latter is a valuable piece of property. The saving effected would not be to the State; it surely would not be to Churchill county. It might lessen the burden of the taxpayers of Washoe and effect a saving to them. But thereby hangs the tale. Allow me to give some reasons why Churchill county should be allowed to remain just as it is:

1st. The county has shown that it is able to take care of itself. It possesses the resources to do so.

2nd. The county "is in a prosperous condition" and does not owe a dollar. There is \$6,000 in the treasury.

3d. The county is no expense to the State. We have no convicts in the penitentiary, no unfortunates in the Orphan's Home, no insane in the asylum.

4th. The county meets its obligations promptly. It elects responsible men to office.

The total value of taxable property in the county is half a million. With no outstanding debt but with money on hand, this is a desirable prize. Washoe is not alone in its efforts of accumulation. Other bills than Mr. Varian's are in existence and other plans devised by which the county may be dismembered. If, from the general wreck, enough could be found to go around, every point of the compass would direct to something or somebody waiting for a slice. If the county had a heavy debt it would be allowed to work out its own salvation. It has been managed upon an economical and a correct basis, and instead of being encouraged its reward is threatened annihilation. Concerning the proposed annexation of this county to Washoe, a brief enumeration of the expense of teaching Reno might attract the attention of economists. From St. Clair to Wadsworth and return stage fare is \$6. Wadsworth to Reno and return, \$5. In order to transact business it would be necessary to stay two nights and one day in Reno, caused by the time on which the trains arrive and depart. The additional expense would amount to \$5. Total, \$16. To people living in Stillwater the cost would be \$20. To people living at Sand Springs, Westgate, Clan Alpine and different mining camps in the eastern part of the county the actual cost would be from \$23 to \$38. If a poor man indulged in the aristocratic luxury of a visit to the county seat he would have to go on foot or drive his own team and live like a gypsy.

Honey Lake Happiness—A Pleasant Little Party.

The young folks of Honey Lake Valley had a good time a few evenings ago at the residence of A. Clarke, whose grand-daughter, Miss Sarah Ripley, was complimented on the occasion. The house was thrown open to all, and all enjoyed themselves to their hearts' content. They danced till midnight, when a splendid repast was served, which all enjoyed with great zest. It was agreed that the ladies of the household thoroughly comprehend the rites of hospitality, as shown by the manner in which they entertain their guests.

Dashing Vaqueros.

Thursday a party of vaqueros, bent on having a little fun, says the Silver State, doubled on their broncos. The horses, naturally wild as deer and not accustomed to carrying two riders at once, cut up more capers than circus mules. They reared, and kicked, and bucked, and jumped, but failed to dislodge their riders, though they kept trying to do so as long as they remained on their backs.

Rough Times on the Road to Fort Bidwell.

Jack Fitzgerald and Bob Perry got as far as Buffalo Meadows, 100 miles from Reno, where Geo. Todhunter met them a day or two ago. They were nearly pegged out. Jack was pushing behind the cart and Bob was ahead, coaxing the horse along. They finally concluded to abandon their rig and board the regular stage, which they did, and are probably at Bidwell by this time. Major Earnest will probably detail a squad of soldiers to watch them.

A New Town.

The mineral belt at Mount Cory is being pretty well looked after. A town site has been laid out and some time next week lots will be sold. The new town is to be called Coryville.

Held Without Bail.

James Coombs, who killed Jack Ross at Carson City, was yesterday held to answer before the next Grand Jury, without bail.

DEAD AGAIN.

An Old Type Who has Died a Good Many Times.

The Bodie Free Press (which paper has published news of Kelly's death several times) says: "Horace Kelly, a well known compositor, died in Yreka, New Mexico, of asthma, about the middle of January. The deceased was an old timer on this coast and was an extremely jolly fellow."

About two years ago Kelly was found dead in a barn in Kern county, and was buried. A short time after he died in Los Angeles and the printers planted him again. Then he went to Las Vegas, New Mexico, and was drowned. Now he dies again near the same place where he was buried. It is a safe bet that Horace will turn up again as beery as ever. In fact, he has already resurrected himself, having written to a friend in Reno since his last funeral, saying that he is hearty as a buck.

Reported Change.

It is reported that Fort Bidwell is to be changed from a two company to a three company post—two of cavalry and one of infantry.
